My thanks to all participants who contributed to our Airport Guide. Unfortunately, some survey forms did not contain the name of the airport nor the city, so we will NOT be able to print those recommendations. Sorry! But, we will run a new survey next year. *Wingtips* Editor.

ANNOUNCEMENTS

FIRST POWERED FLIGHT – A centennial anniversary celebration by aviation groups to mark this incredible feat by two determined mechanics, Orville and Wilbur Wright, is scheduled in 2003. The Wright brothers' dreams of flight and years of skilled scientific experimentation culminated on December 17, 1903 at 10:35 a.m. On that day, they soared into history at Kitty Hawk, North Carolina. Launching the first fully controllable aircraft capable of sustaining itself in the air, they covered 120 feet in 12 seconds. The rest is history . . .

BON VOYAGE – Susan Page, receptionist at Aviation Division, retired in October after 13 years of service to the Texas Department of Transportation. We wish Susan the very best on the next phase of her life and expect her to keep in touch with her friends at Aviation. She will be missed by all . . .

Happy Friday, Susan!!!

Editor's note: Our regular Wingtips edition will resume in January 2003.
